

3Bridges Community Limited a Register Training Organisation (RTO No. 41056) and is an approved Smart and Skilled provider. This course is subsidised by Smart & Skilled and therefore you must meet the eligibility criteria.

What is Smart & Skilled Funding?

Smart and Skilled is a reform of the NSW vocational education and training system. It's helping people get the skills they need to find a job and advance their careers.

Smart and Skilled provides eligible students with:

- an entitlement to government-subsidised training up to and including Certificate III
- government funding for higher-level courses (Certificate IV and above) in targeted priority areas.

Are you eligible?

To be eligible for NSW Smart & Skilled funding, prospective participants must be:

- 15 years old or over, and
- no longer at school, and
- living or working in NSW (or an Aboriginal or Torres Strait Islander person living in specific NSW border areas, and
- an Australian citizen, Australian permanent resident, Australian humanitarian visa holder or New Zealand citizen. or;
- a NSW apprentice or a new-entrant trainee undertaking a selected traineeship on the NSW Skills List (not applicable)
- Previous qualifications do not affect your eligibility.

If you have a Certificate IV or higher qualification you are still able to access subsidised Smart and Skilled training up to Certificate III level, providing you meet the personal eligibility criteria for Smart and Skilled. As you already have a post-school qualification, you may pay a higher fee for your Smart and Skilled training than someone who does not have any qualifications.

HLTSS00064 Infection Control Skills Set

A set of skills to follow organisational infection prevention and control procedures, including implementing standard and transmission-based precautions, and responding to infection risks in the workplace.

Target Group

This accredited unit of competency is for individuals who require the skills and knowledge to decrease the risk of transmission of infection whilst carrying out their daily duties.

By the end of this course learners will acquire the skills, range of factual, technical, and procedural knowledge, as well as theoretical knowledge towards the concepts and practices required to comply with infection prevention and control policies and procedures:

- ✓ Follow standard and additional precautions for infection prevention and control
- ✓ Identify infection hazards and assess risks
- ✓ Follow procedures for managing risks associated with specific hazards

To achieve this course outcome, the candidate must have competently completed all the 'Assessment Requirements' of the unit of competency. A Statement of Attainment will be issued if competently completed. Credit Transfer (CT) can be applied for further studies with any accredited Registered Training Organisation in the Community and Health Services sector.
